3M™ RelyX™ Universal Resin Cement &
3M™ Scotchbond™ Universal Plus Adhesive

The two that can do it all.

3M™ RelyX™ Universal Resin Cement works both as a standalone, self-adhesive cement — and as an adhesive cement together with 3M™ Scotchbond™ Universal Plus Adhesive. The adhesive serves as an universal primer for all materials and covers all direct and indirect bonding indications.

Eliminate the hassle and confusion of multiple resin cements, primers and adhesives and simplify your direct and indirect restorative workflows. Less products to keep on stock and replenish. Saves space, time and money.

- First radiopaque all-in-one universal adhesive
- Further boosts bond strength of RelyX Universal Resin Cement
- Fully aligned system: adhesive cured by cement, no light-cure needed
- Universal primer for all restorative materials

Mix-N-Match New Product Offers
